

The Capture of the Mexican Steamers.

The following is an explanation of the cause of the capture of the Mexican steamers in the harbor of Vera Cruz:
Miramon commenced the siege of Vera Cruz on the 5th. On the 6th two steamers appeared before the city which refused to show their colors. Com. Jarvis therefore ordered the Saratoga, with detachments from the Savannah and Orebos, on the steamers Indianola and Wava, to proceed to the anchorage and ascertain their character. As the Saratoga, towed by the Indianola, approached, the steamers tried to escape, but too late. Capt. Tenner sent a boat out with a flag to demand the nationality of the steamers. The boat was fired upon twice, whereupon the Saratoga fired a broadside into the steamers of Miramon, and the action became general. Both steamers now hoisted Spanish colors, and after a spirited engagement Miramon surrendered with most of his men. American loss 3 wounded, 1 mortally; Mexican loss 15 killed, 20 to 30 wounded.
If this statement is true the course of the captain of the Saratoga is commendable. It will be seen by our telegraphic reports that the news is regarded at Washington as of the highest importance as it cannot be otherwise than that the Spanish authorities of Cuba knew that the hostile steamers were fitting out for the purpose of aiding Miramon, and may have been intended as part of a plan of the Spanish government to reconquer Mexico. We do not believe the people of the United States will permit Spain to gain a foothold in that country, and if she persists in it we are undoubtedly on the eve of a war with that power. This filibustering expedition from Cuba may induce similar attempts from this country upon Cuba, and we cannot see how Spain can fairly complain of it, after this.

Does any one suppose that Booth would have been arrested had Judge Smith been upon the supreme bench? Not at all; nor do we believe that the arrest would have been made had the republican state convention nominated him, or had it discharged its duty to the party and put its candidate upon a square platform, declaring the principle which he is supposed to represent.
The federal power laid its plans, and its tools were in attendance upon the convention—interested spectators. The moment the convention adjourned, ignoring the only question at issue in the spring election, these tools pounced upon their victim—one too, already sunk almost below popular sympathy by the obsequy of social and moral crime.—Elkhorn Independent.

We think the Independent is wholly mistaken in its suppositions. We firmly believe that the administration at Washington has been invited by democratic politicians in this state to make the arrest of Booth at this time for the express purpose and in the hope of creating a conflict that will alarm timid men and aid the chances of Judge Dixon for election to the supreme bench.—Booth was selected in preference to Mr. Rycraft, that the odium adhering to him personally might attach to any movement in his behalf. We further believe that there is wickedness and desperation enough in the government at Washington to precipitate an armed collision between this state and the federal authorities, rather than for bear the execution of its mandate. Wisconsin has been singled out for the exercise of a tyrannical power simply because it is a republican state, regardless of all consequences, and under a devotion to the slave power that gives good cause for alarm to every friend of a free government. If we are not mistaken, the people of the free states will apply a corrective by overthrowing at the ballot box an administration so deeply imbued with hostility to their rights and best interests.

THE DEMOCRATIC NATIONAL CONVENTION.—The democrats are in great tribulation about their convention. The price of beef and high rents are said to be the objections to Charleston, while others believe that the question has something to do with the nominations to be made. The subject is still under consideration at Washington. It is said that the national executive committee will convene next week and settle the question.
The Senate Harper's Ferry committee will close its labors soon. It is a total failure, and has elicited nothing of special interest. The report will not be made in a hurry, if old Mr. Mason can prevent it.

WHAT IS EXPECTED OF THE WEST?—Mr. Bryant, editor of the New York Evening Post, introduced Mr. Lincoln to his audience when he made his speech at the Cooper Institute. While introducing Mr. L., Mr. Bryant thus alludes to the west:
"The Great West, my friends, is a potent auxiliary in the war we are fighting for freedom against slavery; in behalf of civilization against barbarism; for the occupation of some of the fairest regions of our continent, on which the settlers are now building their cabins. I say a higher and a wiser agency than that of men in the canoes that have filled with a hardy population the vast and fertile region which forms the western part of the valley of the Mississippi, a race of men who are not ashamed to till their acres with their own hands, and who would be ashamed to subsist by the labor of the slave. [Cheers.] These children of the west, my friends, form a living bulwark against the advances of slavery, and from them is recruited the vanguard of the army of liberty." [Applause.]

By a recent arrival from the plains it is stated that grass is getting to be good in the Santa Fe route.

Election for Chief Justice.

It is needless for us to say to the people of Rock county that the approaching election for a chief justice is one of very great importance, in which principles are involved, dear as life and liberty itself. We hope the republicans will bring out their whole vote. We believe they need no urging in this particular, and that they are determined to give Judge Sloan an endorsement such as they are in the habit of giving to their nominees. Their votes upon this occasion will be a testimony of their hatred of the infamous fugitive slave act, and their disapprobation of the decisions of the supreme court of the United States, by which it is attempting to destroy the sovereignty of the states. The recent noble stand taken by Senator Doolittle will be sustained by a large majority for Sloan, while the administration will be rebuked by it. Let us have, therefore, a strong vote in old Rock for A. SCOTT SLOAN.

To do this, thorough and efficient measures should be adopted to get out a full vote. Every republican in the county should make it a duty to go to the polls.

State Historical Society.

The Madison Journal after alluding to the report of a joint committee of the legislature recommending the withdrawal of all legislation and aid to the State Historical Society, save the annual appropriation of \$500 for the secretary, and discontinuing the printing of the annual report and transactions of the society, says:
"We think there has been great abuse of the privileges and advantages conferred upon this society by the state, but since these abuses have not been the result of mismanagement on the part of the society itself, or its officers, and have been occasioned rather by the errors or indiscretions of the legislature, it would be in better taste and more appropriate simply to cut off the unnecessary expenditures heretofore indulged in, and continue to the society still the fostering care of the legislature."

The difficulty in this case is, that the abuses admitted by the Journal constitute the very life and soul of the society. This need not be necessarily so, it is true; but we see no prospect of a reform, without making thorough work and going to the full length recommended by the committee. Undoubtedly, the greatest abuse is in the printing connected with the society. Every thing, of a public nature, touched by the Madison printers is corrupted and abused, and every effort made to keep them off their prey somehow proves abortive. Dr. Bennett introduced early in the session a most excellent and efficacious bill, and it was urged upon the attention of the legislature by those who could have no interested motive to desire its passage; yet that bill sleeps, somewhere, the sleep of death. We see no remedy but to cut off everything not absolutely indispensable to the bare existence of the state government, until a privilege or a patronage can be used without abusing it, and until a sentiment of self-interest, if no principle of integrity, shall induce something like honesty in the recipients of a legislative bounty. Charging to "the indiscretions of the legislature," the abuses perpetrated by others is a little too strong a dose to be taken by those who know anything about the matter. World it can be a good idea for the present legislature to effectually relieve itself from the imputation cast by the Journal upon its predecessors by laying the axe to the root process?

ANOTHER ARRIVAL FROM EUROPE.—We have news from Europe one day later by the North British. It is not of sufficient importance to give the details sent by telegraph. Breadstuffs are reported dull and consols have declined in price. Attention is almost exclusively directed to complications upon the continent.

The friends of Senator Bigler have denied the newspaper statement that previous to his election as a delegate to the Charleston convention he pledged himself to vote for Mr. Douglas after the third ballot. This does not look as if Douglas would be supported by the Pennsylvania delegation.

SENATOR DOOLITTLE'S SPEECH.—The Washington correspondent of the Wisconsin state speaks of Judge Doolittle's able speech:
I hear the recent speech of Senator Doolittle, of your state, in reply to Toombs, continually spoken of in the highest terms. Lawyers are sending for it from all parts of the country. It is being extensively circulated as a campaign document.

The fire at Black River Falls destroyed property to the amount of \$39,000. Nearly the whole business portion of the place was burnt. There was no insurance. We are glad to learn that the printing of the "Banner" remained untouched.

SUPPRESSING THE SLAVE TRADE.—Mr. Wilson has introduced a bill in the U. S. Senate for the construction of five steamships adapted to the African coast for the suppression of the African slave trade. We are glad to see that the plan is approved by members of the opposite party. The suppression of this traffic is demanded by every consideration of morality and humanity.

Beriah Brown, Esq., has assumed the editorial charge of the Washington States and Union. The editor of the Washington Constitution, the government organ, is also a Brown.

The Chicago Northwestern Money Reporter, now under the charge of G. W. Kendrick, gives the following description of an alteration on a Wisconsin note—BANK OF WISCONSIN, Watertown, Wis. 5s altered from 1s—vig. revolutionary skirmish.

PLEASANT.—A person in Berlin, Wisconsin has a note in his possession, the face of which was originally one hundred and eleven dollars. The person who gave the note has already paid nearly three hundred dollars upon it, and there still remains due, of principal and interest, about two hundred and fifty dollars.—Milwaukee Sentinel.

A friend of ours holds a note dated March 14, 1852, for \$240.00, on which has been paid at different times \$255.00, and there is still due nearly \$70.00. The rate of interest is 10 per cent.—Madison Patriot.

Exploration of Africa.—The Livingstone Expedition.—Discovery of a New Cotton Region.

From the Zambesi expedition intelligence has been received at London by her majesty's steamer Lynx, to a late date in December. Dr. Livingstone and his party were then at Kongoro harbor on the Zambesi, with the aid of the engineers of the Lynx were engaged in repairing their steam launch, the Ma Robert, the iron plates of which have now been worn to the thickness of a wafer. They had returned from a second expedition up the Shire, in which they penetrated far up beyond Lake Shirwa to Lake Nyassa. The former they ascertained to be a sheet of water ninety miles in length; while the latter is of still larger magnitude, and one of the chain of lakes of which the discoveries of Captains Burton and Speke are the continuations northward.

Dr. Livingstone speaks in glowing terms of the country which he traversed, and he has applied to the church missionary society in London to exert themselves for occupying it as a most inviting missionary field. Mr. Baines, the artist of the expedition, has been compelled from failing health to come down in the Lynx to the Cape, but he purposes returning again to the Zambesi before long. Mr. Thornton, the geologist, had proceeded to the interior, on an independent expedition of his own, in company with some Portuguese traders. And when the Lynx left the Kongoro, Dr. Livingstone, with his brother, Dr. Kirk, and Mr. Rae, were to return to Teta with the Ma Robert, and thence overlaid by foot on a visit to the Makololo country. This journey was expected to extend over a period of at least eight months.

DISCOVERY OF A NEW COTTON REGION.

RIVER SHIRE, Nov. 4, 1859.
MY DEAR MR. CLEGG.—We have just returned from visiting the Lake Nyassa, the source of the river Shire, and what is of greater importance, have discovered a great cotton growing and cotton manufacturing country. The cotton is of two kinds, native and foreign. The native is short in the staple, and feels more like wool than cotton. The foreign appears to be of good quality, with a staple from three fourths of an inch to an inch in length. It is perennial, and requires planting only once in three years, while the native has to be planted annually in the highlands, yet the people prefer the latter, because, they say, it makes the stronger cloth. We remarked to a number of intelligent looking men in one village, "You should plant plenty of cotton, and perhaps the English will come soon and buy it." "This our country is all cotton," replied one elderly man, who was a trader, and had traveled much; and our own observation confirmed the truth of this. Everywhere we saw it while passing through two and a half degrees of latitude, and it probably extends much further. Every family appears to have a piece of cotton ground, and it was gratifying to see how clear of weeds and grass they kept them.—Doctors Livingstone and Kirk, while passing through part of the same region last April, saw cotton patches of from two to three acres each, and at the time a different route, we did not observe any containing more than one-third of an acre. They were in general about a quarter of an acre each. In every village we saw men busy cleaning, spinning and weaving cotton. The looms are of the simplest possible construction, and all the processes are exceedingly slow.

"This vast cotton region is easily accessible. The Shire joins the Zambesi about one hundred miles from the sea, below the difficult parts of the latter river; and for one hundred and twenty miles the Shire has a good channel, the river being from one hundred and fifty to two hundred yards wide. One hundred and twelve miles from its mouth the cataraacts commence (lat. 15° 35' S.), and for thirty miles the river is not navigable (goods would have to be carried overland here) above the cataraacts to Lake Nyassa; sixty miles the river is again navigable, and low far to the north the great navigable lake extends we do not know. The natives said that it would take months to get to the head of the lake.
"The Shire valley is about twelve miles wide at the foot of the lake. But soon expands to twenty or thirty, being bounded on both sides all the way by ranges of hills, the range on the east or left bank being very lofty. There is an exceeding fertile plain on both sides of the river (we traveled on the east of the river), and pretty well cultivated on the Upper Shire, where it is about twelve hundred feet above the level of the sea. Ascending the eastern range of hills by a steep path, we soon reached a plateau, five hundred or six hundred feet higher; a second ascent of one thousand feet, and we find another plateau, three or four miles wide, and in a short time gained the highest part, upwards of three thousand feet above level of the sea, and find ourselves on an extensive (table land, which in these three districts extends some distance below the cataraacts. This high table land is from twelve to fourteen miles wide, and its eastern side slopes gradually down to Lake Tarnandua or Shirwa (eighteen hundred feet above sea level), east of which we saw some lofty mountains.

On the table-land are numerous hills, and in the Zambesi—Quadrax, about 5,000 feet high; Zomba, the northern extremity (which was ascended), from 3,000 to 5,000 feet in height, and twenty miles long from north to south. The whole of the country is remarkable well watered; wonderfully numerous are the streams and mountain rivers of cool, clear, gushing water. Even Zomba has a river about twenty yards wide, flowing through a fine valley near its summit. On one occasion we passed eight streams and one spring in a single hour, and this was at the end of a dry season.
"These highlands seem to possess a salubrious climate; the air was bracing, and gave an unusual vigor to the system. The cotton-headed men and women, the cotton carriers—traders that merely where cotton may be easily grown, but where they are actually growing it—begins twenty or thirty miles below the cataraacts, and extends up to the lake and probably far beyond, both on the plains and in the highland—the foreign cotton growing at the lake and in different places for thirty miles below, and also again below the cataraacts, while the native is cultivated throughout the whole extent of country. The people live in villages, and are pretty numerous. They seem to be an industrious race.
"Iron is dug out of the hills, and each village has one or two smelting houses.—From their native iron they manufacture bows, axes, spears, arrow-heads, knives and numerous ornaments. Nearly all their own clothing they prepare themselves; it consists either of the bark of trees, skins of goats—for there are few or no wild animals in the highlands or in the well-peopled plains—and native cloth; and they are also great cultivators of the soil, men, women and children are often seen at work in the field. This seems really a fine country for a new enterprise—healthy highlands and the materials for commerce and water communication, with but a single exception. Let a market be opened, or an agency appointed for the purchase of their cotton, &c., and they will soon increase the amount raised to a large extent, as it does not require the severe toil which it does in the United States, and there are no frosts to kill it.—They are very anxious to trade. At the villages we could hear the women pounding corn all night, to have meal to sell before we left. The people of one village which we passed, without stopping, followed us,

endeavoring to induce us to remain all night with them. As a last argument they cried after us, "Are we to have it said that white people passed through our country, and we did not see them?" We noticed extensive tracts of land on the plains, where salt exudes from the soil. These would probably be found well adapted for Sea Island, as the foreign cotton becomes longer in the staple on these lands.
"I enclose specimens of the two kinds of cotton picked in the different parts on the plains, and in the highlands."
CHARLES LIVINGSTONE.

REPORTED FOR THE MORNING GAZETTE.

BY WISCONSIN STATE TELEGRAPH LINE, Office in Union Passenger Depot.

Wisconsin Legislature.

MADISON, March 21.

ASSEMBLY, 9 A. M.
Petitions, &c.—Several petitions for relief from holders of Mutual insurance company script. Petition for passing county court bill.

The resolution granting the use of the hall to Hon. A. D. Smith to deliver a lecture in was debated at length.
Bills Introduced.—To dispose of the drainage fund in Manitowish county. To amend section 16 chapter 18 Revised Statutes of general and special elections. To provide for holding special terms of the circuit court in Waushara county. To annex part of Waupaca county to Shawano county. To amend section 22 chapter 118 of Revised Statutes, entitled of grand and petit juries.

SENATE.—Bills Introduced.—An act relating to the public printing. To amend section 61 chapter 28 Revised Statutes of school and university lands.

Plants Introduced.—To authorize the Corn Planters Bank to locate its capital and remove its place of business. To incorporate the Wisconsin Agricultural Society. A bill relating to school and university lands. To amend section 28 chapter 13 Revised Statutes relating to township limits. To define qualification of electors in certain cases.

NEW ORLEANS, March 19.
Miramon paid \$50,000 for the two steamers. He passed by all the foreign squadrons and the castle without hoisting a flag, although ordered to do so by a shot from the castle and other signals. The English, French and Spanish vessels of war did not notice the fact. The engagement took place in the morning. The prisoners corroborated the report of the capture of the steamers—that they cleared from Havana as merchantmen, and then hoisted the Mexican flag.

WASHINGTON, Tuesday Night.
The news from Mexico has created a profound sensation here, particularly relative to the capture of the two Spanish steamers. The details are awaited with great interest. It was supposed they were captured as pirates, and the act of our naval force is fully sustained. Loud and open indignation is expressed against the Spanish authorities in Cuba for fitting out the expedition to attack the constitutional government of Mexico, which we recognize. It is thought by some that the two steamers were fitted out by the authority of Spain and sustained by France. Quite a charge has taken place within the last 48 hours in the minds of those legislators who have opposed the Nicaragua and Mexican treaties. The democratic senators hold a caucus this morning to discuss the propriety of ceasing all efforts to make any treaty with any Spanish-American country, since the republicans have brought matter to a decision. The republican senators also held a caucus on the same subject, and the discussion was warm. The result was that Senator Dixon and several others joined Senator Wilson in the policy indicated by his vote on the Nicaragua treaty, and, if practicable, to rescind the Nicaragua treaty and pass it.

Dr. D. C. Peters has been accepted as contract surgeon to the army, and is to report at Columbus for service in San Antonio.
Lieut. Lipson, 3d artillery, is ordered to report at Fort Columbus, to proceed with his regiment to Fort Brown.

ALBANY, March 21.
The Governor has vetoed the bill to prohibit Sunday amusements in New York. Considerable excitement was created about the capital to-day by a fracas in the hall. One Brooklyn representative was met by a young man as he was leaving the house and knocked down by a severe blow. The cause is stated to be the discovery of an intrigue between the member and the wife of the assailant.

WASHINGTON, March 21.
SENATE.—Mr. Trumbull presented the proceedings of the board of trade at Chicago, asking for an assay office.
Mr. Bayard, from judiciary committee, reported back the bill for the protection of American vessels, and it was passed. This is the same bill that has passed the house.

HOUSE.—Mr. Stanton asked leave to introduce a resolution requiring the President to inform the house whether the recent capture of two Mexican vessels, in or near the port of Vera Cruz, by the U. S. ship of war Saratoga, was in pursuance of the order of the President or secretary of the navy, or whether the act of the officers in command of the Saratoga has been or will be approved by the President; also that the President be requested, if not incompatible with the public service, to communicate copies of all orders or instructions under which the vessels in the Gulf of Mexico are acting. Mr. Crawford objected to the introduction of the resolution. The house then resumed the consideration of the resolutions reported from the committee on elections in the Sickles case.

THE MARKETS.
NEW YORK, March 21.
Flour little more active, sales at 5,150, 25 super western; 5,550, 05 common to medium extra western. Rye flour steady, 3,70d, 40. Wheat dull and nominally unchanged.

CHILDREN POISONED BY GARDEN PARSNIPS.—On last Sabbath afternoon three of Mr. Dotson's children, one of Mr. Rice's, and three of Mr. Welsh's, while in a garden adjoining the latter's house, partook of some parsnips which had been standing in the ground for a couple of years. Soon after they had eaten, alarming symptoms of poisoning manifested. Messengers were immediately despatched to physicians, but before they made their appearance the children were in convulsions. Doctors soon arrived, and by prompt, skillful treatment, had the satisfaction in a short time of assuring the agonized parents that their children were out of danger. A delay of fifteen or twenty minutes would have been fatal. Most every body knows that the wild parsnip is a deadly poison, but we believe it is not generally known that the ordinary garden parsnip, if suffered to remain in the ground for a couple of years, and go to seed, becomes quite as poisonous as its country cousin, yet such we are informed is the fact.—Freeport Bulletin.

Indian outrages continue to be recounted in the Texas papers, but we are told nothing of the rascals on the part of the whites, which, in many, if not in nearly all cases, have provoked them.

AN EXECUTIVE BUNGLER.—The proslavery press are making some noise over the fact that Gov. Dennison of Ohio refused to issue warrants for the arrest of Owen Brown and Francis Meriam, on the requisition of Gov. Letcher, of Virginia. We have examined the official correspondence which has passed in this behalf, and we find that Gov. Letcher has not been in office long enough to know how to make a demand for a fugitive from justice. In making his claim for the custody of the said Brown and Meriam, he omitted to show that either of them had ever fled from Virginia or were now in Ohio, whereas the law of congress for the rendition of persons accused of crime for the arrest of an essential part of the process that the executive issuing the demand should show that the party had fled from his state to escape its justice. It might have been a neighboring thing for Gov. Dennison to have issued his warrant on the presumption that Brown and Meriam did escape from Virginia to avoid arrest and conviction for participating in the Harper's Ferry affair, but no governor can afford to establish a precedent of that sort in violation of the law. The attorney general of Ohio, to whom Gov. Dennison referred the matter, very properly remarked that the insanity of the citizens from arrest and exile would stand on the frailest ground if held subject to hearsay evidence, or to the unverified declaration of a single high functionary in the land. Congress has enacted that one class of persons may be arrested by power of attorney—to wit, fugitives from service or labor, negro slaves. But it has never enacted that white men, whatever their crime, may be pursued from one state to another by guesswork, and seized on presumption.—Chicago Tribune.

ALL SORTS OF PARAGRAPHS.

STATE PRINTER OF MINNESOTA.—We are somewhat surprised to see that the publishers of the St. Paul Times and Minnesotaan have been defeated, as public printers of Minnesota, and that O. Brown, Esq., of the Fairbault Republican, has been elected.

There are at present eight hundred and ninety-seven convicts in the New York state prison at Auburn—three more have been before quartered at that institution.

NEW HAMPSHIRE.—Full returns from New Hampshire show the following result: Goodwin, republican, 38,009, Cate, democrat, 33,410. Goodwin's majority, 4,599.—Mr. Wentworth, republican candidate for senator in the sixth district, is elected, making 10 out of 12 senators. The republican majority in the house is 85.

The Salt Lake Valley Tan says that out of over two hundred murders committed in Utah within the past three years, not a single offender has been convicted or punished.

MONOPOLY ABOLISHED.—The legislature of New Jersey have passed a law, and it has been signed by the governor, which, in effect, does away with the railroad monopoly so long enjoyed by the Camden & Amboy company. It leaves some questions to be decided by the courts, and if the constitutionality of the law is sustained, there will be no doubt soon be competing lines of railroad between New York and Pennsylvania.
Lord Brougham has introduced a bill in the English Parliament to exempt prisoners from the necessity of pleading guilty or not guilty to indictments.

PURCHASE OF THE "PAN-HANDLE."—Resolutions have been introduced into the Pennsylvania legislature, contemplating the purchase of that portion of Virginia known as the "Pan-Handle." It empowers the governor to appoint three commissioners to meet a similar number to be appointed in behalf of Virginia, to negotiate such session. The Pennsylvania commissioners are to report the terms and conditions, if any are agreed to, to the next sessions of the legislatures of the states.

THE LAWRENCE CALAMITY.—On Thursday last, workmen engaged in removing the ruins of the Pemberton Mills, came upon the body of a man named Bailey, an Englishman. The Traveller says:—"The body bore no marks of violence, and was in a good state of preservation. The ravages of the fire did not extend to the locality where he was buried, and it is supposed that he may have lived some time after the accident."

The Washington Constitution, in place of editorial comments on the homestead bill, which has just passed the house, copies a column and a half argument against the measure from the report of Mr. Buchanan's secretary of the interior. This shows shadows an executive veto, unless the President disagrees with Secretary Thompson on this question as completely as he does with Secretary Cobb on the tariff.

The candidates for the presidency who divided the late Georgia democratic convention, were the Hon. Howell Cobb, secretary of the treasury, and the Hon. A. H. Stephens, late member of the house of representatives. As in the case of Virginia, which was divided between Hunter and Wise, the convention refused to decide between them, leaving them to go before the Charleston convention on their own merits.

Late advices from England "are to the effect that a project is on foot to take up and replace the injured portions of the Atlantic telegraph cable, which, it is said, lie within two hundred miles of the Irish coast, and at no great distance from Newfoundland. The company will raise twenty thousand pounds for this purpose, and the attempt to carry it into execution will be commenced in May at the Newfoundland side, the impression being that the fault is within a few miles of Trinity Bay.

SALT MANUFACTURE AT SAGINAW.—On Saturday last, we paid a visit to the salt works in this city to ascertain the latest developments in that line. We found the superintendent, Mr. Potter, with his assistants, actively engaged in hauling out a couple of boiling cauldrons, above full of the clearest, whitest and most common salt we have ever seen. It was thrown into baskets to drain off and become dry. The brine was drawn from the bottom of the well by the drill pump, a sufficient quantity being thus obtained to fill the kettles about two-thirds full. After heating up gradually and boiling awhile, the salt begins to be deposited at the bottom of the kettles, and is hauled out with a sort of circular shovel with a rod in the center for a handle. At the time of our visit we should judge two or three bushels of salt had been taken out, and more to come. Quite a number of citizens and strangers were present witnessing the first satisfactory and successful manufacture of salt at this place, and each visitor carried away a specimen of the products—a lump as the most positive evidence of what had been done.—Saginaw Enterprise, 15th.

MELANCHOLY CASUALTY.—About 5 o'clock P. M., on Wednesday last, an incident of melancholy nature occurred in this city, resulting in the sudden death of a wife and mother.

A son of John Williams (a sailor living near the river, west of the brick yard,) about six years of age, went out upon the ice about the time above named, and when near the middle of the river, was seen, by his mother, Bridget Williams, to break through the ice, which was quite rotten. She instantly ran to his rescue, the ice giving way beneath her feet, and when near the spot where the child broke through, she fell forward upon her face upon the ice, and did not rise again, although buoyed up above the water by the ice. She was seen to fall by a man upon the opposite (south) side of the river, who ran to her assistance, but was obliged to go around by the Wisconsin street bridge before he could cross the river, and when he reached her by means of boards placed upon the ice, she was dead. The boy, we believe, succeeded in getting out of the water before assistance arrived.

A coroner's jury was immediately called, and an inquest held upon the body before Seth Pelton, Esq., a justice of the peace of the fourth ward. The jury rendered a verdict "Death from apoplexy caused by fright, in the effort to save her child from drowning."

The scene upon the arrival of the husband during the inquest, is said to have been heartrending. So sudden was the blow to him that he was almost frantic with grief, and he clung to the corpse as though he would have brought it back to life with his endearments. His children had been taken to the neighbors, and he could scarcely be made to understand that they were not also in the river. Indeed, he was only prevented from plunging in after them by physical force.

By this melancholy casualty five children are left motherless, the youngest of whom is but one month old.—Sheboygan Times.

The New York legislature has passed a bill for the collection of tolls on railroads competing with the state canals. It passed the lower house on Friday, having previously passed the senate.

MARRIED.
In this City, March 18th, by Rev. W. C. Whitford, Mr. ALBERTUS CLARK, of South Brookfield, N. Y., and Miss SARAH BARNARD, of Lima.

DIED.
In this City, March 16th, of inflammation of the lungs, EDWARD M. VINCENT, son of Hon. Edward M. Vincent, aged 38 months and 3 days.

NEW ADVERTISEMENTS

Money to Loan.
On farming lands. Apply to POTTER & WINANS, Office under the Central Bank, Janesville, Wisconsin.

PARIS PATTERN HATS.
JUST received at Melroe's, the latest style of PARIS PATTERN HATS, both in Crown and Strap trimmed, which will be open for inspection for one week only. Ladies, call and see them. mar21dwf

Brushes! Brushes! Brushes!
Received this day by Merchants' Despatch, a large assortment of

BRUSHES OF ALL KINDS!

WHITE WASH BRUSHES, all sizes.
WHITE WASH BRUSHES, extra large and long.

WHITE WASH BRUSHES, with and without handles.
SCRUB BRUSHES, all kinds.

HORSE BRUSHES.
CLOTH BRUSHES.
PRINTERS' LYE BRUSHES.

Made to order. PUMPS REPAIRED. Shop over DeWitt's Drug Store, 2d street, of brick, next to the Janesville. RAGS WANTED IN EXCHANGE. mar21dwf

COUNTY COURT OF ROCK COUNTY.
In the matter of the estate of George E. Price, deceased.
On reading and filing the petition of Wm. B. Strong, executor of said estate, in and to the said court, he has fully administered and estate, and representing that a date and place may be fixed for examining and allowing the account of his administration, it is ordered that said account be examined by this court on the first Monday of April next, at 10 o'clock A. M., at the office of the judge thereof, in the city of Janesville, and that notice thereof be given to all persons interested by publishing a copy of this order three times prior to said day of examination, in the Janesville Daily Gazette, daily newspaper published at said city. March 19th, 1860. COURT, J. M. OSBORN, CLERK. mar21dwf

NOTICE.—The copartnership between us under the style and name of J. L. Moore & Co., in this day dissolved by mutual consent. All demands against said firm will be settled by J. L. Moore. All debts due the said firm must be settled immediately. Either of the firm are authorized to settle the same. J. L. MOORE, M. HANSON, N. SWAGER, Janesville, Mar. 17, 1860.

The business of the late firm will be carried on at the old stand by J. L. Moore, who will keep a good stock in the Furniture, Looking Glasses, and Plate, Silversmith and Undertaking business, and will sell cheap for cash. 425 Milwaukee Street, west side of river, 3 doors west of Central Bank. J. L. MOORE, mar21dwf

WOOD FOR SALE.—At \$3.50 per cord, delivered to any part of the city. Enquire at E. B. Borden's Clothing Store, Young America Block, mar21dwf

POTTER & WINANS.
Attorneys and Counselors at Law. Office under the Central Bank, Janesville, Wis. mar21dwf

TO LET.—From the 1st of April—the Store on Myrick Street, 2d street, of brick, next to the store by McKee and Dwyer, is a Military and Store store. mar21dwf

A Second Hand Wanted.
We want a second hand set of Polk's Platform Scales of 500 to 1500 lbs weight, for which we will pay the highest price. PILLEY & HANLOW, mar21dwf

SPECIAL NOTICES.

SAFETY AND ECONOMY!
NON-EXPLOSIVE
BURNING FLUID
Having purchased the sole right to manufacture and sell Prof. Greenough's Non-Explosive Burning Fluid, and having fully tested the same before many of our best citizens who are all satisfied of its important advantages over any fluid in use, I am prepared to supply all with this valuable article, and at the same price as the ordinary explosive fluid. It is used in the same lamps with no extra expense to consumers. It gives bright, clear light, is more durable, and it is free from the dangerous properties.

Any person can satisfy himself of its merits by calling and witnessing experiments.
For sale only at the People's Drug Store, west side, dec17dwf

KEROSENE OIL.
Non-Explosive Burning Fluid, Lamp Oil, for sale at the PEOPLE'S DRUG STORE, west side, dec17dwf
